

Calculator Appendix — Technical Unit

Per-skill-code values for the **Technical unit wage worksheet**. Find your skill code below and read across your level. Everything else you need is on the worksheet itself.

If your code begins BDS or BGS, confirm your market reference before relying on it — in those codes the printed reference often disagrees with the chart's own compa-ratio (40% of BDS rows), because the group spans more than one Salary Reference Table. · A level marked * has fewer than 30 people; read its probabilities as rough. · Blank cells mean the chart published no figure — they are not zeros. · Source: the February 20, 2026 salary review charts for each code.

MEASURED MERIT SHARES (worksheet line B3) — read off each code's own Chart 136E							
Skill code	Name	Under 0.90	0.90 to <0.95	0.95 to <1.00	1.00 to <1.05	1.05 to <1.15	1.15 and above
BCA-6G5E	Mechanical & Structural Engineerin			1.00×	1.00×	1.00×	1.00×
BCA-6H6F	Production Engineering - Numerical Con	1.00×	1.00×	1.00×	1.00×	1.00×	
BCA-6H6G	Production Engineering - Manufacturing	1.00×	1.00×	1.00×	1.00×	1.00×	1.00×
BCA-6NKJ	Industrial Engineering - Methods Proc	1.00×	1.00×	1.00×	1.00×	1.00×	1.00×
BCA-JACF	Quality - Quality Production Spclst	1.00×	1.00×	1.00×	1.00×	1.00×	

If your code is listed here, **use its row for B3 instead of Table 3 on the worksheet** — these are measured from your own group rather than inferred from another. **Line B4 (the PFM share) is not measured and stays on Table 3:** Chart 136E is February 2026 data, from before the Performance Fund Merit existed, so no chart can show how it will be distributed. Shares are each band's average increase divided by the code's overall average increase, so 1.00× is the typical award for that code. Blank means too few people in the band to read.
